Professional Summary

Recent Computer Science graduate with strong foundations in software development, object-oriented programming, database management, and artificial intelligence. Experienced in Python, SQL, Flask, ASP.NET Core MVC, MySQL, SQL Server, NLP, and computer vision through hands-on academic and personal projects. Demonstrated ability to design, develop, and deploy full-stack and AI-powered applications. Eager to contribute technical skills, problem-solving abilities, and continuous learning mindset in a Software Engineer, Full-Stack Developer, or AI/ML Engineer role.

Technical Skills

- **Programming Languages:** Python, SQL
- **Frameworks:** Flask, .NET Core MVC
- **Web Technologies:** HTML, CSS, JQuery, Ajax
- **Databases:** MySQL, SQLite, SQL Server
- **Python Libraries & Technologies:** NLTK, MediaPipe, ONNX, rembg
- **Tools & Platforms:** Git, GitHub, VS Code

Projects

YouTube Transcript Summarizer

- Built an NLP-based application using Python and NLTK to summarize YouTube video transcripts.
- Implemented keyword-based timestamp extraction for easier navigation in long videos.
- Optimized transcript processing to generate summaries within seconds.

Tech Stack: Python, NLTK, YouTube Data API

Employee Attendance & Payroll Management System

- Developed a Flask-based web application for attendance and payroll management.
- Implemented CRUD operations for attendance, leave, and salary records.
- Optimized SQL queries for efficient payroll report generation and database operations.

Tech Stack: Python, Flask, MySQL, HTML, CSS

AI-Based Augmented Reality Smart Shopping Assistant

- Developed a real-time AR virtual try-on system using MediaPipe Pose detection.
- Built an AI-powered background removal pipeline using rembg and ONNX.
- Designed a full-stack e-commerce platform with authentication and seller management.
- Achieved 25–30 FPS real-time rendering with optimized image processing (2–3 seconds/image).

Tech Stack: Django, Python, MediaPipe, JavaScript, HTML, CSS, SQLite, ONNX, rembg

Internships

Artificial Intelligence Intern — SkillDzire

May 2024 – July 2024

- Worked on machine learning workflows including data preprocessing, model training, and evaluation.
- Analyzed model performance and assisted in improving prediction accuracy.

Web Development Intern — TechSonIx Solutions

May 2025

- Developed a responsive portfolio website using HTML, CSS, and JavaScript.
- Used Git and GitHub for version control and collaborative development.
- Improved UI responsiveness and resolved frontend issues for better user experience.

Education

Bachelor of Technology (B.Tech) in Computer Science and Engineering

2022 - 2026

Sir C. R. Reddy College of Engineering

CGPA: 8.13

Certifications

- Python Programming Certification — HackerRank
- SQL Basics Certification — HackerRank
- E-Commerce Certification — Flipkart Grid (2024)

Achievements

- 2nd Place — College Project Expo 2023 (YouTube Transcript Summarizer)
- 3rd Place — JNTUK Project Expo 2023

Leadership

- Student Coordinator — Celestra2k24
- Event Coordinator — Celestra2k25
